

COMPANY OVERVIEW

Rich Taste Foods Gruh Udhyog, established in 2018, is an indigenous **KHAKHRA** making company with a flair for innovation. Our story will justify why we use the term innovation. Let's take a short introductory glance, down the memory lane, to know what we indigenously innovate.

KHAKHRA, basically a Gujarati delicacy, is now a world famous snack due to its many fold health benefits. We add many nutrients in its preparation, to enhance its health related benefits along with maintaining a tangy taste. As we know nowadays the basic criterion for choice of eatables is "health first" but good taste sustains this choice forever.

SNAPZ, the brand name, strike a chord of our modern life, which endlessly clicks snapshots of evergreen memories on to our devices and in our mind. We too aspire to register our SNAPZ in your mind and heart with happy memories of healthy titbits. So **GET READY FOR THE SNAPSHOT WITH SNAPZ.**

In this present era young professionals prefer to spend their time in pursuing their dreams and goals, rather than spending more time in kitchen like the olden days. Don't you remember how mothers used to spend hours standing at the kitchen platform, making delicious food for us, toiling and slogging with her recipes? Yes this was her priceless love for us. Isn't it our turn now to return her love by taking care of her? Free her from the toil of kitchen work. When you choose to purchase **SNAPZ** Khakhra, you can enjoy the authenticate taste, along with your mother, relaxing on a couch and probably enjoying her favorite Netflix shows. You can even have it at your workplace, during short breaks and get real healthy energy shot by munching a few Khakhras in couple of minutes. In absence of such a healthy option you might end up gulping unhealthy junk food and latter on feel guilty about it.

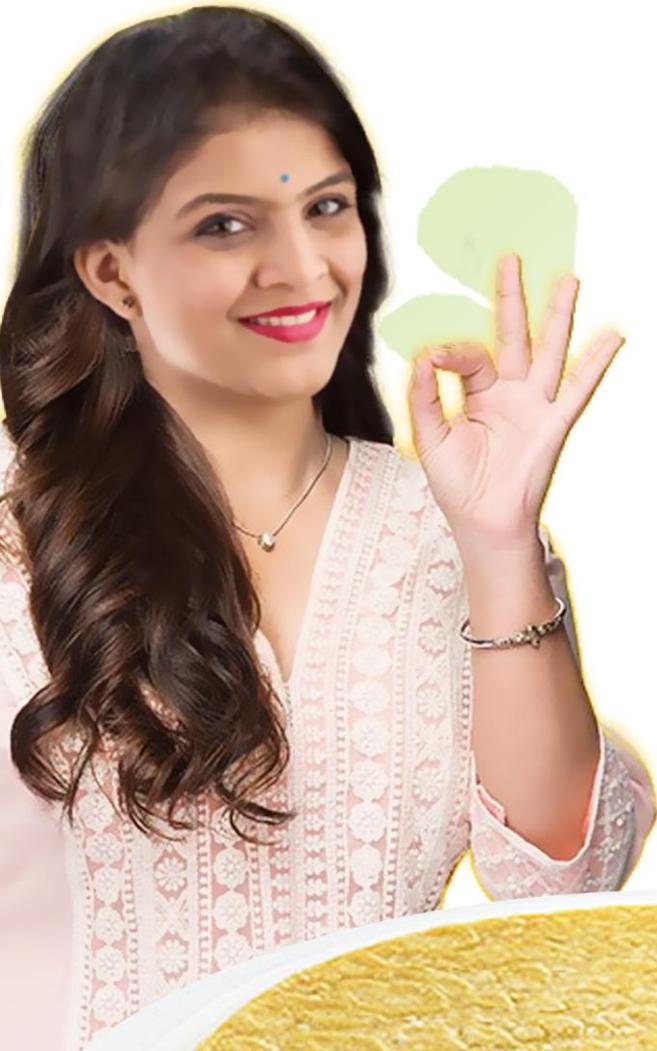

SNAPZ provides nutrients which boost up energy for activities, growth, and major functions of the body such as breathing, digesting food, and keeping us warm; nutrients are essential for the growth and repair of the body, and for keeping the immune system healthy.
